

POSTING SCORES FOR PELICAN ONE, EIGHT AND NINE

To: All Golfers

From: Handicap Committee

Florida State Golf Association has provided us with the correct method for posting scores on holes where the greens have been designated as “two putt maximum greens”. The proper procedure for posting a score on these holes is to post a net par, this is for posting purposes only. This would be the par for that hole plus any stroke that you would receive based on your handicap.

Example

On a par 4 if the player is allowed one stroke then the maximum score for posting purposes is a 5, regardless of the actual score the player shot.

Hopefully this will alleviate the concerns of players and create a fair approach that will allow all players to post every score.

Thanks,

The Handicap Committee
